

COMPANY PORTFOLIO

Aluminium & Serramenti Solutions

Engineering Excellence, Delivered.

ART SER DI SHEHEZAD TARIQ

Verona, Italy - 26+ years of expertise - 2026

Who We Are

ART SER is a professional aluminium and serramenti services entity built on over 26 years of hands-on industry experience. We specialise in the production, installation and technical execution of aluminium windows, doors and structural systems for commercial and industrial projects.

The focus is on precision workmanship, reliability, and solutions that meet strict technical and site requirements - based in Verona and operating independently since 2015.

26+

Years in the field

2015

Independent since

Professional certifications

Our Journey

2001

Industry Beginnings

Entered the aluminium window and door industry with Dal Bosco Serramenti srl, building solid expertise in production, assembly and installation.

2015

Independent Practice

Obtained the VAT licence for freelancers and began operating independently, serving commercial and industrial applications.

Today

ART SER DI SHEHEZAD TARIQ

Based in Verona - production and installation of aluminium and PVC systems, fabrication and on-site technical execution.

With over 26 years of field experience - built on passion, reliability, precision and technical expertise.

What We Do

01

Aluminium Windows & Doors

Production, cutting, assembly and quality-controlled finishing.

02

PVC Windows & Doors

Supply and installation - thermal-efficient, cost-effective.

03

Installation & Assembly

On-site fitting with certified safety practices.

04

Facades & Curtain Walls

Structural glazing for commercial buildings.

05

Sliding & Folding Systems

Space-saving, seamless indoor-outdoor transitions.

06

Sun Protection & Shutters

Roller shutters, mosquito nets, blinds and screening.

CAPABILITIES

Capabilities & Craftsmanship

- Production and installation of aluminium windows and doors
- Supply and installation of PVC windows and doors
- Aluminium fabrication for commercial and industrial sectors
- On-site installation, finishing and technical execution
- Production support for aluminium systems

CERTIFIED FOR

Frame installation - Work at height (Cat. III PPE) - MEWP operation - First aid - Fire safety

FEATURED PROJECT

Iconic Commercial Complex

Facades & Curtain Walls

Verona, Italy - 2023

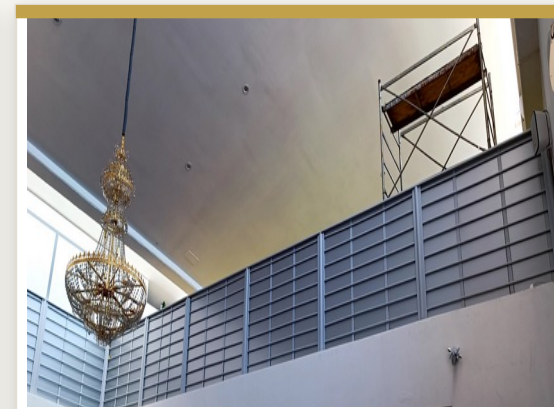

Full production and fabrication of aluminium and glass curtain wall systems for a landmark commercial complex, in collaboration with ART FER SRL. Precision-engineered aluminium frames, structural glazing assemblies and building connection elements - delivered through CNC cutting, certified welding and quality-controlled finishing, designed to withstand seismic loads while minimising structural burden.

FEATURED PROJECT

S. Pietro Residential

Windows & Doors - San Pietro, Verona - 2023

Complete production and installation of premium aluminium window and door systems for a residential building. ART SER manufactured and fitted casement windows, tilt-and-turn units and entrance doors with wood-effect aluminium finishes - delivering excellent thermal insulation, acoustic performance and refined aesthetics that blend seamlessly with the traditional architectural character of the neighbourhood.
