

COMPANY PORTFOLIO

Aluminium Window & Door Solutions

Engineering Excellence, Delivered.

ART SER DI SHEHEZAD TARIQ

Verona, Italy - 26+ years of experience

Company Profile

For over 26 years, **ART SER** has transformed aluminium and PVC into premium solutions for residential and industrial construction.

We are a team of professionals specialising in the **production, installation and technical execution** of windows, doors, roller shutters, insect screens and complex structural systems. Our strength comes from hands-on field experience: we combine craftsmanship precision with the most advanced technologies to ensure thermal and acoustic insulation and maximum safety.

We don't just sell windows and doors — we create the perfect union of aesthetics, functionality and energy efficiency, guiding every project from technical design to final installation.

The focus is on precision, reliability and solutions that meet strict technical and site requirements — based in Verona and operating independently since 2015.

Our Journey

2001

The Beginnings

Window & Door Fitter / Installer |

Entered the aluminium window and door industry with Dal Bosco Serramenti srl, gaining a thorough understanding of the entire product cycle.

Production & Assembly: Cutting, machining and assembly of aluminium profiles for window and door frames and facades.

Installation: On-site fitting and final assembly of windows and doors for residential and industrial clients, ensuring precision and thermal-acoustic insulation.

2015

Independent Practice

After obtaining a VAT registration, began independent operations serving commercial and industrial applications.

Today

ART SER DI SHEHEZAD TARIQ

Based in Verona, specialising in the production, supply and installation of aluminium and PVC windows and doors, roller shutters and insect screens. The company directly manages every phase of on-site work, combining technical fabrication with professional installation to ensure maximum insulation, energy savings and tailored solutions for every client.

With over 26 years of field experience — built on passion, reliability, precision and technical expertise.

What We Do

01

Aluminium Windows & Doors

Production, cutting, assembly and quality-controlled finishing.

02

PVC Windows & Doors

Supply and installation — efficient, cost-effective systems.

03

Installation & Assembly

On-site fitting with certified safety practices.

04

Structural Facades & Curtain Walls

Structural glazing for commercial buildings.

05

Sliding & Folding Systems

Seamless indoor-outdoor transitions.

06

Sun Protection, Insect Screens & Roller Shutters

Roller shutters, insect screens, blinds and screening.

EXPERTISE

Expertise & Craftsmanship

- **Excellence in production:** We manufacture durable, certified aluminium and PVC window and door frames.
- **Supply and installation** of PVC windows and doors, roller shutters and insect screens.
- **Industrial and residential solutions:** From home windows and doors to large structural facades.
- **Technical execution:** We manage complex projects with the utmost engineering precision.
- **Skilled installation:** Workmanlike installation for maximum thermal insulation.

QUALIFICATIONS

Window & door installation - Work at height (Cat. III PPE) - MEWP operation - First aid - Fire safety

FEATURED PROJECT

Iconic Commercial Complex

Facades & Curtain Walls

Verona, Italy - 2022

Complete production and fabrication of aluminium and glass curtain wall systems for a major commercial complex, in collaboration with ART FER SRL. Precision aluminium frames, structural glazing and connection elements — produced through CNC cutting, certified welding and quality-controlled finishing, engineered to withstand seismic loads while reducing the load on the structure.

S. Pietro Residential

Windows & Doors - San Pietro, Verona - 2023

Art.Ser di Shehzad Tariq completed the production and installation of high-end aluminium windows and doors for a residential building, combining modern performance with classic style.

The Tailored Solution

Casement and hopper windows: maximum natural light and controlled ventilation.

Premium entrance doors: advanced security and refined design.

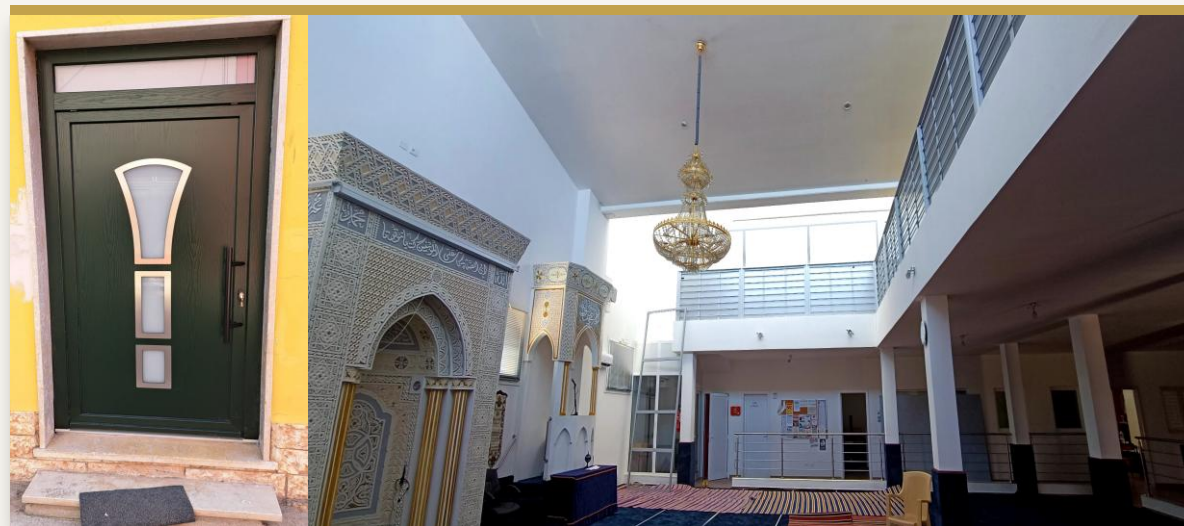

RAL and wood-effect finishes: traditional aesthetic warmth in harmony with the neighbourhood.

The Technical Benefits

Thermal insulation: lower consumption and reduced energy bills.

Acoustic comfort: complete protection from external noise.

Maximum durability: premium aluminium lasts over time and eliminates maintenance.
